

## Filter Solutions

Integrated Microwave Assemblies  
Frequency Agile Filters  
Tunable Assemblies  
Extremely Fast Switching  
Low Profile Packaging

## Product Spotlight

## Mechanically Switched Triplexer

5LM10-DC/X6000-O/N is a field configurable mechanically switched triplexer used to interface a vehicular antenna to either a one or two radio system. The package is well suited for harsh environmental concerns.

Broadband frequency performance to 6.0 GHz with low insertion loss and high channel-to-channel isolation, with 100 W continuous power handling in all bands.

## Filter Wizard<sup>SM</sup>

K&L Microwave's Filter Wizard<sup>SM</sup> software simplifies selection of the right filter product for your application from a vast number of designs. Provide desired specifications, and Filter Wizard<sup>SM</sup> returns response data and outline drawings for matching products. Visit [www.klfilterwizard.com](http://www.klfilterwizard.com) today!
