WSN-00198 – High-Power Band Reject Filter

WSN-00198 is a K&L Microwave high-power band reject filter positioned at the output of a VHF-UHF amplifier. The filter attenuates an undesired harmonic by 60 dB, while maintaining low-loss passbands, utilizing special features to extend the upper passband to 500 MHz.

For further information and performance data, please contact K&L Microwave.
